

Sit Stand Outside/Inside The Classroom

Have the students bring their chairs out to an open space in the classroom or outside the class.

Have the students sit down on the chair.

Use four main commands for the students (you may need to bring your own chair that faces them to help them understand the command). You will have them follow the commands; sit, stand, in the classroom, and outside. You can add extra commands as you play to make it increasingly interesting/difficult

During this activity, make one of the actions from the previous letter dance activity and make the students touch one of the AEIOU cards on the wall.
